

| Drug Class                     | Compounds/Metabolites Detected                                | Cutoff level          | Detection Window | Prescription Brand Name/Other  |
|--------------------------------|---|-----------------------|------------------|--|
| <b>AMPHETAMINES/STIMULANTS</b> |   |                       |                  |  |
| Amphetamine                    | amphetamine   | 1.5 ng/mL             | 1-2 days         | Adderall®, Adderall®XR, Adzenys XR-ODT®, Dexedrine®, Dextroamphetamine, Dextrostat®, Dyanavel XR®, Evekeo®, Lisdexamfetamine, Vyvanse®, Zenzedi®   |
| Methamphetamine                | methamphetamine, amphetamine                                  | 1.5 ng/mL             | 1-2 days         | Benzphetamine®, Desoxyn®, Didrex®, Eldepryl®, Selegiline®, Vicks® Inhaler  |
| Methylphenidate                | methylphenidate   | 1.5 ng/mL             | 1-2 days         | Apensio XR®, Concerta®, Daytrana®, Focalin®, Metadate®, Methylin®, QuilliChew ER®, Quillivant®, Ritalin®   |
| Phentermine                    | phentermine   | 1.5 ng/mL             |                  | Apidex-P®, Lomaira®, Qsymia®, Suprenza®  |
| <b>ANTICONVULSANTS</b>         |   |                       |                  |  |
| Gabapentin                     | gabapentin  | 40 ng/mL              | 1 day            | Gralise®, Horizant®, Neurontin®  |
| Pregabalin                     | pregabalin  | 8 ng/mL               | 1 day            | Lyrica®  |
| <b>BENZODIAZEPINES</b>         |   |                       |                  |  |
| Alprazolam                     | alprazolam  | 1.5 ng/mL             | 2.5 days         | Xanax®, Xanax®XR   |
| Chlordiazepoxide               | chlordiazepoxide, nordiazepam, oxazepam                       | 1.5 ng/mL             | 7-9 days         | Librax®, Librium®, Limbitrol®  |
| Clonazepam                     | clonazepam, 7-aminoclonazepam                                 | 8.0 ng/mL             | 3-6 days         | Klonopin®  |
| Clorazepate                    | nordiazepam, oxazepam   | 1.5 ng/mL             | 7-9 days         | Gen-Xene®, Tranxene®   |
| Diazepam                       | diazepam, nordiazepam, oxazepam, temazepam                    | 1.5 ng/mL             | 7-9 days         | Diastat®, Diazepam IntenSol®, Valium®  |
| Lorazepam                      | lorazepam   | 1.5 ng/mL             | 3-5 days         | Ativan®, Lorazepam IntenSol®   |
| Midazolam                      | midazolam   | 1.5 ng/mL             |                  | Versed®  |
| Oxazepam                       | oxazepam  | 1.5 ng/mL             | 3-5 days         | Serax®   |
| Temazepam                      | temazepam, oxazepam   | 1.5 ng/mL             |                  | Restoril®  |
| Triazolam                      | triazolam   | 8.0 ng/mL             |                  | Halcion®   |
| <b>MUSCLE RELAXANTS</b>        |   |                       |                  |  |
| Carisoprodol                   | carisoprodol, meprobamate                                     | 1.5 ng/mL             |                  | Soma®  |
| Meprobamate                    | meprobamate   | 8.0 ng/mL             | 12-72 Hours      | Equanil®, Miltown®   |
| Cyclobenzaprine                | cyclobenzaprine   | 8.0 ng/mL             |                  | Amrix®, Flexeril®  |
| <b>OPIATES/OPIOIDS</b>         |   |                       |                  |  |
| Buprenorphine                  | buprenorphine, norbuprenorphine                               | 1.5 ng/mL / 8.0 ng/mL |                  | Belbuca®, Bunavail buccal film®, Buprenex®, Butrans®, Probuphine Implant®, Suboxone® Subutex®, Zubsolv®  |
| Codeine                        | codeine, morphine, hydrocodone (minor metabolite)             | 1.5 ng/mL             | 0.5-21 hours     | Cheratussin®, Fioricet®w/codeine, Fiorinal®w/codeine, Guaiaussin®, Triacin-C®, TuzistraXR®, Tylenol®w/codeine #3, #4, Virtussin®   |
| Fentanyl                       | fentanyl, norfentanyl   | 1.5 ng/mL             |                  | Abstral®, Actiq®, Duragesic®, Fentora®, Insoy®, Lazanda®, Sublimaze®, Subsys®  |
| Hydrocodone                    | hydrocodone, hydromorphone, norhydrocodone                    | 1.5 ng/mL             | 14-48 hours      | Flowtuss®, Hycodan®Syrup, Hycofenix®, Hydrocet®, Hydromet®, Hysingla® ER, Lorcet®, Lortab®, Maxidone®, Norco®, Obredon®, Reprexain®, Rezira®, TussiCaps®, Tussigon®, Tussionex®, Vantrela ER®, Vicodin®, Vicoprofen®, Vituz®, Xodol® Zohydro® ER, Zutripro®, Zydone® |
| Hydromorphone                  | hydromorphone   | 1.5 ng/mL             |                  | Dilaudid®, Dilaudid-HP®, Exalgo®, Hydrostat IR®  |
| Meperidine                     | meperidine  | 1.5 ng/mL             |                  | Demerol®   |
| Methadone                      | methadone, EDDP   | 1.5 ng/mL / 8.0 ng/mL | 1-4 days         | Dolophine®, Methadone HCl IntenSol®, Methadose®  |
| Morphine                       | morphine, hydromorphone (minor metabolite)                    | 1.5 ng/mL             | 1-21 hours       | Apokyn®, Arymo ER®, Astramorph®, Avinza®, Duramorph®, Embeda®, Infumorph®, Kadian®, Morphabond®, MS Contin®, MSER®, MSIR®, Oramorph SR®, Roxanol®  |
| Naloxone                       | naloxone  | 8.0 ng/mL             |                  | Bunavail buccal film®, Evzio®, Narcan®, Suboxone®, Talwin®, Targiniq®, Zubsolv®  |
| Naltrexone                     | naltrexone  | 8.0 ng/mL             |                  | Contrave®, Embeda®, Revia®, Vivitrol®  |
| Oxycodone                      | oxycodone, oxymorphone, noroxycodone                          | 1.5 ng/mL             | 24-52 hours      | Endocet®, Oxaydo®, OxyIR®, OxyContin®, Oxycet®, Percocet®, Percodan®, Percolone®, Roxicet®, Roxicodone®, Targiniq®, Tylox®, Xartemis®, Xtampza ER®   |
| Oxymorphone                    | oxymorphone   | 1.5 ng/mL             | 0-8 hours        | Numorphan® Opana® Opana ER®  |
| Pentazocine                    | pentazocine   | 1.5 ng/mL             |                  | Talwin®  |
| Propoxyphene                   | propoxyphene  | 1.5 ng/mL             | 1-48 hours       | Darvocet®, Darvon®   |
| Tapentadol                     | tapentadol  | 1.5 ng/mL             |                  | Nucynta®   |
| Tramadol                       | tramadol, desmethyltramadol                                   | 1.5 ng/mL             | 1-48 hours       | Conzip®, Ultracet®, Ultram®, Ultram ER®  |
| <b>ILLCITS</b>                 |   |                       |                  |  |
| Heroin                         | 6-monoacetylmorphine (6-MAM), morphine, codeine (minor metab) | 1.5 ng/mL             | 4-24 hours       | Heroin   |
| Cocaine                        | cocain, benzoylecgonine                                       | 1.5 ng/mL             | 2-4 days         | Crack  |
| Ecstasy                        | Methylenedioxymethamphetamine (MDMA)                          | 1.5 ng/mL             | 1-47 hours       | Ecstasy, Molly   |
| Phencyclidine (PCP)            | PCP   | 1.5 ng/mL             | 5-8 days         | Angel Dust   |
| THC, Cannabinoids              | Δ-9-carboxytetrahydrocannabinol                               | 1.5 ng/mL             | 1-3 days         | Dronabinol®, Marinol®  |
| <b>SNRI ANTIDEPRESSANTS</b>    |   |                       |                  |  |
| Venlafaxine                    | venlafaxine   | 8.0 ng/mL             |                  | Effexor®   |
| <b>OTHER ANTIDEPRESSANTS</b>   |   |                       |                  |  |
| Trazodone                      | trazodone   | 1.5 ng/mL             |                  | Desyrel®   |
| <b>SLEEP AIDS</b>              |   |                       |                  |  |
| Eszopiclone                    | zopiclone/eszopiclone   | 1.5 ng/mL             |                  | Lunesta®   |
| Zaleplon                       | zaleplon  | 8.0 ng/mL             |                  | Sonata®  |
| Zolpidem                       | zolpidem  | 40.0 ng/mL            |                  | Ambien®, Edluar®, Intermezzo®, Zolpimist®  |
| <b>COTININE</b>                |   |                       |                  |  |
| Cotinine                       | cotinine  | 50.0 ng/mL            |                  | Nicotine   |
| <b>EMERGING DRUGS</b>          |   |                       |                  |  |
| Mitragynine (Kratom)           | mitragynine   | 8.0 ng/mL             |                  | Kratom   |
| <b>SYNTHETIC CANNABINOIDS</b>  |   |                       |                  |  |
| JWH-073 4-Hydroxybutyl         | JWH-073 4-hydroxybutyl metabolites                            | 8.0 ng/mL             |                  | Spice, K2  |
| XLR-11                         | XLR-11 metabolites  | 1.5 ng/mL             |                  | Spice, K2  |
| AB-FUBINACA                    | AB-fubinaca   | 8.0 ng/mL             |                  | Spice, K2  |
